Dear Challis Anderson, (Service Department Lead)

I am applying for the diesel mechanic position at Premier Truck Group as listed on Zip Recruiter. I have 2 years of experience in professional automotive repair, including my certification from Dixie Technical College, Heavy Equipment Technician. I believe that I can be a valuable asset in your team and I am willing to learn more about what takes to be the best Tech I can.

In my previous role at Olds Construction, I was responsible for keeping a clean work environment, maintaining project deadlines, and making sure tasks were completed correctly and safely. In addition, I thrive in a shop environment with hands on work. I am willing to keep up to date with news in the diesel technology field.

My time at Dixie Technical College has strengthened my skills in diagnosis and repair. Working on trucks inside and out of school has given me great hands on experience for the real world. I am confident I can use my skills effectively and efficiently at Premier Truck Group and I look forward to growing more in my knowledge of diesel repair and service.

I would be very happy to talk more about how I can add to your team. Thank you for considering my application, I look forward to discussing this opportunity further.

Sincerely,

Kash Mattarollo
